

Since February 1, 2026, Michaël Krajecki has been the President and CEO of the GENCI (Grand Equipment National de Calcul Intensif, National HPC Agency). GENCI is a French research infrastructure that aims to put numerical excellence at the service of science and innovation.

From 2019 to 2026, he was the Project Director for Artificial Intelligence at the Ministry of the Armed Forces, and then Director of the Research Department at the AMIAD ("Agence Ministérielle pour l'IA de Défense", AI Agency in the Defense Field).

Michaël Krajecki is a professor at the University of Reims and holds a Ph.D. in Computer Science from the University of Metz, with a specialization in parallel algorithms. His research has focused on the link between high-performance computing and Artificial Intelligence.
